

Downloading free Duluth Public Library e-books to your Kindle

This is a step-by-step instruction guide for getting free library e-books on a Kindle e-reading device. Kindle books are compatible with any Kindle e-reader or the free Kindle app (available for PC, Mac, and most tablet or smartphone devices). Visit the Amazon website to learn more about Kindle apps. Library e-books are downloaded through the Amazon website via the library's distributor for downloadable media, OverDrive, Inc.

If you have a Kindle Fire device, you may download the OverDrive Media Console app from the Amazon app store and borrow books through the app.

Search for e-books through the library's OverDrive website.

- Go to www.duluthlibrary.org

- Click on the link **Downloads tab** (located on the left column of the homepage)

- Click on **OverDrive Ebooks** or **Overdrive Audio Books**.

This will bring you to the Arrowhead Library System/Duluth Public Library OverDrive page. You can browse through the e-book and audiobook collections by clicking on a genre at the top of the OverDrive page. You can also search for a title or author by using the search box in the top right corner of the page. Notice the link to "Advanced search" listed under the basic search box.

- Click on the link to "Advanced search" for more search options.
- You can search for a title or author from this page or you can leave those fields blank and search for a specific subject or format of item.

The image shows a 'Download' menu for the book 'Holidays on Ice'. The menu is titled 'Download (Select one format)' and has two options: 'Kindle Book' and 'EPUB eBook'. The 'Kindle Book' option is checked with a green checkmark. Below the menu is a 'Confirm & Download' button, which is highlighted with a red box.

After clicking on "Confirm and Download" you will be brought to the Amazon website and must click the link **Get library book** to finish the transaction.

You will need to sign in to Amazon using your Amazon account information.

Once signed in, you will be asked where to send your Kindle book. Choose the device or app you would like to have the book sent to and click **Continue**.

The library e-book will sync with your Kindle e-reader or app the next time you open your Kindle library within a wi-fi connection. You may need to check the Archive folder or Cloud option after your Kindle syncs to find the library book. Alternatively, books can be transferred to a Kindle via a USB connection from your computer. This is helpful if you do not have a wireless connection with which to sync your device.

If you check out a title with "USB only" capability, there will not be an option to download it wirelessly to your device.

Instead, you will need to choose the option to "transfer via computer."

You will be asked to choose which device to send your book to:

Follow the instructions for downloading the file to your computer.

Thanks, DPL!

You should be prompted to open or save the file immediately. If the prompt doesn't appear, [click here](#).

Select **Save File**, then click **OK**

This will save your Kindle Edition to the default downloads location.

To begin reading, first make sure your Kindle is connected to this computer via USB. Then, copy the downloaded file to the "documents" folder of your Kindle. It will appear on your Home screen.

Once the file is downloaded, you will need to transfer it from your computer to your Kindle. To do this, find the file (it may be located in your downloads folder) and move or copy it to your Kindle drive when the Kindle is plugged into the computer.

What if I have a problem?

If you are having trouble with the OverDrive software, help resources are available on the OverDrive website (<http://arrowhead.lib.overdrive.com/>). If you cannot find the answer to your question there, email webmail@duluth.lib.mn.us with a detailed explanation of your problem or fill out the form at [http://overdrive.com/Contact/Form-FrontLineSupport.aspx?Lib=Arrowhead Library System](http://overdrive.com/Contact/Form-FrontLineSupport.aspx?Lib=Arrowhead%20Library%20System). Library staff or OverDrive technical support will get back to you about the problem.
